FORTIETH CONGRESS.

Bill Regulating Qualification of Jurors Passed in the Senate—House Proceedings—Indian Appropriations—Resolution to Rescind Impeachment Proceedings Ruled Out of Order.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, April 8, 1868.

SENATE.

Mr. WILSON, from the Military Committee, reported a bill to continue the Freedmen's Bureau.

Mr. HARLAN called up the bill to exempt property used for school purposes in the District of Columbia from taxation.

Mr. HOWARD called up the bill requiring reports of railroad companies to be filed in the office of the Secretary of the Interior instead of the Secretary of the Treasury.

Mr. TRUMBULL called up the bill in regard to the qualification of jurors. It provides that expression of opinion, founded on public rumor or statements in public journals, shall not disqualify a juror otherwise competent, and who shall take the oath that he can give a verdict according to the evidence.

Mr. JOHNSON supposed the law already allows a Court in its discretion to accept such jurors.

Mr. TRUMBULL replied such was the practice in many States, but the bill proposed to make the practice uniform.

Mr. BAYARD thought this a dangerous provision. A man could not be otherwise than partial after forming and expressing an opinion.

Mr. DAVIS was not sure the measure was not an innovation on the sacred right of an impartial trial by jury, and concurred in the opinion of the last speaker. He would sooner yield the whole Government than this inestimable right. [During Mr. Davis' remarks, Messrs. Trumbull and Johnson engaged in a smiling conversation in front of Mr. Davis.] Senators may laugh and snicker, but their scoffs and jibes will not drive me from opposing this innovation. I do not care what their high position in society is. That is not the way to meet opposition to any important measure.

Both gentlemen rose in turn, and were understood to make a disavowal.

Mr. DAVIS said he was perfectly indifferent. He had been speaking in all seriousness.

Mr. FRELINGHUYSEN held that in these days of general newspaper reading the expression of hypothical opinions does not militate against the impartiality of a juror. The bill was framed to correct certain injurious rulings frequently made by Courts.

Mr. BAYARD again opposed the bill.

It passed—thirty-seven to eight.

Mr. SUMNER introduced a joint resolution proposing an amendment to the Constitution of the United States. The proposed amendment is as follows:

No person elected as President or Vice President who has once served as President shall afterwards be eligible to either office.

Referred to the Committee on Judiciary.

At the expiration of the hour, the Senate proceeded to the consideration of private bills reported from Committee on Claims.

The consideration of unimportant bills occupied all the afternoon.

At half-past three o'clock Mr. MORGAN moved to go into executive session. Agreed to—22 to 10. The Senate soon after adjourned.

HOUSE OF REPRESENTATIVES.

The SPEAKER presented a communication from the Commissioner of Indian Affairs, relative to the necessity of speedy legislation on Indian appropriations. Referred to the Committee on Appropriations.

The Senate amendments to the naval appropriation bill were referred to the Committee on Appropriations.

Mr. WASHBURNE, of Illinois, offered a resolution, quoting an advertisement in the New York *Times* for the sale of the steamship Atlantic, to pay a balance of $115,500 under a contract with the Collins steamship line, and directing the Secretary of the Treasury to report all the facts connected with the mortgage held by the United States, &c Adopted.

Mr. ROBINSON offered the following, as a privileged resolution:

Resolved, That the resolution of impeachment against Andrew Johnson, passed February 24th, 1868, and the proceedings amendatory thereof or supplemental thereto, be and the same are hereby rescinded, and the Managers be recalled.

The SPEAKER ruled the resolution not privileged, because there was a pending motion, on which the previous question had been ordered on the 21st of March, as to printing four thousand copies of Mr. Butler's opening address, and no business was in order, except by unanimous consent, until that was disposed of.

Adjourned.

VIRGINIA.

The New York Legislature—The Charge of Bribery—Investigation Proposed.

[By Telegraph to the Pittsburgh Gazette.]

ALBANY, April 8.—The New York City Central Underground Railroad bill passed the Senate to-day.

Resolutions were introduced providing for a Committee on Inquiry into the charge that large sums of money had been improperly and corruptly expended by persons claiming to represent the stockholders and Directors of the Erie road in bribing or attempting to bribe members of the Assembly, and that the consideration of all bills or resolutions relative to said Company be postponed until said Committee report.

An amendment was moved to strike out the word Erie, so as to include other railroads, and particularly the legislation had on the Central Railroad bill a year ago, when it is alleged $205,000 were spent to influence legislation.

A motion to strike out the last clause, providing for the postponement of the consideration of all resolutions and bills relative to the Erie Company, prevailed—eighteen to thirteen, whereupon the whole matter was tabled, at the instance of its originator.

NEW YORK.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 8, 1868.

ERIE RAILROAD SUITS.

The various suits in the Erie litigation came up before the Supreme Court, General Term, to-day, on appeals from the order suspending Mr. Drew from several injunctions, and from the order appointing a Receiver.

Mr. Barnett opened the case for Mr. Drew in an argument against the legality of the appointment of Mr. Osgood as Receiver, contending the convertible bonds were authorized by the General Railroad act of 1850, and that the action of the Erie directors was sanctioned by that of other companies, including the New York Central and Hudson. As to the proceeds of the stock, the appointment of Receiver was erroneous, because the stock was in the hands of innocent third parties, while even were it illegally issued, and the proceeds in the hands of the Company, no cause would exist for the appointment of a Receiver. On these grounds the defendants demand a reversal of the order, with costs.

Mr. Rapello and Mr. O'Connor replied for the Vanderbilt party, contending the stock was fraudulently issued, that a large sum was improperly obtained therefrom, and the order for a Receiver should be made permanent.

Mr. Field continues the argument to-morrow for the appellants.

In the case of Scheel vs. Erie Company, before Judge Barnard, the answer of Jay Gould to the attachment for violation of the injunction was filed. He denies knowledge of the issue of 50,000 shares of stock, but believes certificates of stock in blank were made by the officers of the Company before the injunction, and that the Executive Committee issued convertible bonds to the extent of ten millions, half of which passed into the hands of Groesbeck & Co., and half to Daniel Drew. Some evidence on the subject was submitted, but no conclusion reached.

John B. Haskins, Referee, was examined this afternoon in the attachment proceedings against Jay Gould, the Erie Railroad Director. He testified that David Dudley Field offered him $5,000 to procure a modification of the original injunction from Judge Barnard. On cross-examination the witness stated he, Judge Barnard, J. H. Copeman, Recorder Hackett and George A. Osgood were in the habit of meeting in Hackett's office. Witness was further cross-examined for the purpose of showing he had used his personal influence with Judge Barnard to influence the judicial action of the latter.

The argument in the *habeas corpus* case of Jay Gould takes place to-morrow.

THE INDIANS.

Accounts of Depredations—Authentic Reports Suppressed by Agents and Contractors.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, March 8.—An Omaha special to the *Democrat* says: A reliable letter from Fort Laramie dated March 1st, says that the Indian agents and contractors for Indian goods are suppressing authentic reports of Indian affairs, and doing everything to prevent the true state of things from being made public. The following are only part of the depredations committed. The last week in March fifty Indians attacked a ranch on Little Cotton Wood, twenty miles west, on the Cheyenne and Fetterman road, killing one boy and carrying of the ranchman's wife. The owner of the ranch and one boy escaped to a neighboring ranch where seven whites lodged. The Indians attacked the house, but were repulsed, leaving one dead horse on the ground. On the 22d of March one hundred Indians attacked Horse Shoe ranch, forty miles west, occupied by a man named Worrell, formerly of the Eleventh Ohio Cavalry, his partner, Thermburg, and another man. Having plenty of arms and ammunition, the whites defended the ranch until night and then escaped into an underground passage way, with loopholes, from which they kept up a fire, killing two Indians and wounding several, and killing four horses. The Indians in the meantime burnt the building, stables, &c., valued at six thousand dollars. Early next morning Worrell's party escaped to Iron Spring ranche, three miles east, where four more whites lodged. The entire party started for Cottonwood ranche, fifteen miles beyond. After proceeding about six miles they were attacked by sixty Indians. After a long fight, in which Harper and David Dunheir and another white man were killed, Worrell wounded, and five Indians killed, the parties held a council, the Indians agreeing, if the men returned and gave up the goods at Irvin Spring Ranche, they would be allowed to go unmolested. This was done, and the Indians then burned the Ranche. Morrell and three others were brought in by a company of troops, and the killed buried were found.

On March 24th, a ranche on the road between Cherry creek and Fort Fetterman was burned. Nothing has yet been heard from the occupants. The Indians were stealing stock and committing all kinds of depredations unpunished. Settlers between Forts Fetterman and Laramie have all gone to the military posts for protection. On March 25th two settlers living on Laborta creek were attacked by seventy Indians. Their buildings were burned and their property destroyed. The men escaped to Fort Fetterman.

Appeal from the Indian Commissioner to Congress—Official Public Debt Statement—Impeachment Trial—The Jury Bill—Military Matters—Freedmen's Bureau Continuance—Homestead Law in Florida.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, April 8, 1868.

INDIAN AFFAIRS.

The Secretary of the Interior sent to the House to-day a communication from the Commissioner of Indian Affairs, who says: "Referring to office reports of the 20th and 21st of February last, in which reference was made to the necessity of certain appropriations being made at an early day, in order that the faith of the Government and promises of the Indian Peace Commissioners may be kept good, I desire to say it is evident to my mind that unless immediate action is had by Congress upon the estimates referred to in said reports, and necessary funds appropriated to enable the department to carry out and fulfill the promises made with certain tribes, we shall have trouble with them. I am led to be believe this from various rumors that have reached this office of the feelings and intentions of certain bands and tribes on the plains. If we expect to keep the Indians friendly to the Government, and at peace with it, we must fulfill our promises. Otherwise we can but expect, as would be the case were we dealing with white men and christians, a renewal of the troubles of last summer. Besides, if our agreements are not faithfully carried out, the Indians will soon loose all confidence in the government; they will believe nothing told them by its officers, and an almost endless war will be the result, which will cost millions of dollars to suppress, and to avoid which thousands are only asked. This question has become of so grave importance that I deem it my duty to again invite your attention to it. If we are to have another Indian war this summer, I do not wish the country to think it was caused or brought about by the management of the affairs of this office, and after the urgent requests that have been made for funds, and the statements that have been made in regard to the matter, this Bureau certainly cannot be held responsible for any acts of hostility or depredations that may be committed by the Indians."

THE CANADA ASSASSINATION.

Loyal Irish Citizens Uneasy—Great Funeral Preparations.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 8.—A Montreal special says: McGee's murder has created intense excitement. Prominent loyal Irish citizens are very uneasy, as a plan of general assassination, in which those concerned in Fenian prosecutions are included, is reported. The American Consulate flag was lowered, and the Consul officially reported the matter at length to the United States Government. The body will be met to-morrow by the citizens *en masse*. The funeral will take place on Friday. The body will lie in state on Thursday. A grand funeral car is being built, and the funeral will be a great popular demonstration. Sixty thousand persons are expected to be present. The police are on the alert, and all outlets to the States are closed. The Royal proclamation is placarded everywhere. Fenian lodges here are very quiet.

MONTREAL, April 8.—A public meeting of citizens was held at noon to-day to express their indignation at the assassination of McGee and condolence for his family. The most intense excitement prevailed all day.

OTTAWA April 8.—The adjourned inquest was resumed in the afternoon and a large number of witnesses were examined. The evidence taken was mainly in connection with the finding of the body. The case against Whelan deepens hourly. The government detectives are in possession of a strong chain of evidence against him, and the Crown reckon confidently on his being the man. A loaded revolver was found on his person when arrested, and a cartridge in one of the chambers was evidently new. This chamber had no trace of having been recently discharged. The other chambers were bright and clear. The bullets with which it was loaded are exactly like that which killed McKee. It is generally believed a gang ruffians are mixed up in the assassination. Two or three parties, against whom there is circumstantial evidence, have been arrested as accomplices of Whelan. In order to expedite the trial the Crown will probably take the case out of the Coroner's hands to-morrow, and it will be brought before the Police Court.

TORONTO, April 8.—A man named James Ryan, formerly messenger in the Executive Council, was arrested in this city by a Government detective and brought before the Police Magistrate to-day, and remanded until further orders from Ottawa.

Suicide at Indianapolis.

[By Telegraph to the Pittsburgh Gazette.]

INDIANAPOLIS, April 8.—George W. George, of Cincinnati, committed suicide at the Bates House last night, by shooting himself in the head with a Derringer pistol. His body was not discovered until about noon to-day. The servant girl tried his door twice during the forenoon, and the third time looked over the transom, and discovered him lying in his blood. From letters found in his room addressed to his wife, son and the clerk of the hotel, it appears he had contemplated suicide for the past year, and that the only apparent cause for his self-destruction was on account of the failure of a patent cooking column which he was exhibiting for sale. He had been stopping at the Bates House since the 10th of March.

—The ingrain carpet weavers of Philadelphia have resolved to ask an advance in wages. The strike of the workmen continues and quite a number of employers have acceeded to the demands made upon them.

—Tuesday week, a barn containing six horses and a large number of pigs, sheep, chickens, cattle and agricultural machines, besides a lot of hay and oats, in Lowell, in the central part of Wisconsin, was struck by lightning and entirely consumed.

—The Judiciary Committee of the Massachusetts House of Representatives has reported an article of amendment to the State Constitution, which provides for the appointment of Attorney General, District Attorneys and Sheriffs by the Governor.

—The pulpit of a church in Arpajon, France, fell on March 8th, stunning the pastor. A panic seized the congregation who rushed for the doors, causing such a pressure that thirteen persons were trampled to death and twenty-four seriously injured.

—Timothy S. Pitch, a prominent citizen of Chicago, was fined five hundred dollars in Court of Criminal Correction, at St. Louis, yesterday, for misdemeanor, alleged false swearing in connection with a suit with Captain Bruner, some five years ago. A motion for a new trial will be made.

—The remains of Thomas D'Arcy McGee, who was assassinated at Ottawa, Canada, on Tuesday, after the performance of funeral ceremonies in the Catholic Cathedral, were sent by special train to Montreal, attended by the members of the Cabinet and other distinguished personages as pallbearers. The family of deceased will be amply provided for by the Government. The assassination is generally attributed to the Fenians.

Registration in North Carolina.

[By Telegraph to the Pittsburgh Gazette.]

WILMINGTON, N. C., April 8.—Registration here is as follows: first day, whites 56, blacks 179; second day, whites 103, blacks 105. In the middle sound precinct for the two days there were whites 50, blacks 37. The excitement over registration is very great, but there has been no disturbance. During the remaining three days it is thought the whites will out-register the blacks.

A STAMMERING WIFE.

When deeply in love with Miss Emily Pyne,
I vowed if the maiden would only be mine,
I would always endeavor to please her.
She blushed her consent, though the stuttering lass
Said never a word except "You are an ass—
An ass—an as-as-tonishing teaser!"

But when we were married, I found to my ruth,
The stammering lady had spoken the truth,
For oft in obvious indigestion
She'd say, if I ventured to give her a jog,
In the way of reproof—"You're a dog—a dog—
A dog—mattic cure-sudgeon!"

And when once I said, "We can hardly afford
This extravagant style with our moderate hoard,"
And hinted we ought to be wiser,
She looked, I assure you, exceedingly blue,
And fretfully cried, "You're a shew—you're a jew—
A very jo—jealous perwiser!"

Again, when it happened that wishing to shirk
Some rather unpleasant and arduous work,
I begged her to go to a neighbor,
She wanted to know why I made such a fuss—
And angrily said, "You're a cuss—cuss—cuss—
You were always keen-toned to labor!"

Out of temper at last with the insolent dame,
And feeling that madam was greatly to blame,
To scold me instead of caress—ing,
I mimicked her speech, like a chart that I am,
And tartly said, "You're a dum—dum—dum—
A dum—a dumage instead of a blessing!"

TABLE TALK.

—Dubuque will have street cars running by May 10th.

—*Judy* thinks the Bishop of *Down* ought to be a *low* Churchman.

—Sailors in the French navy are not allowed to wear moustaches.

—A Fifth Avenue lady has just received a medallion carpet for which she paid $11,000 at the Paris Exhibition.

—An excavation was made in Pompeii in honor of Admiral Farragut.

—There are 59 professors belonging to the faculty of Columbia College, New York, and 754 pupils.

—There are still upwards of three and a half millions of unemancipated serfs in the Russian possessions.

—Two hundred creatures, who disgrace the name and sex of women, have recently arrived at Cheyenne.

—Somebody has estimated that young Boston has thrown $1,500 worth of bouquets at the feet of the White Fawn.

—It is said that one of Mrs. Sprague's friends has answered Mrs. Swisshelm. We should like to see the answer.

—Blue coats and brass buttons have come up again in England; they have been *the thing* for two or three years in Paris.

—The Hon. John B. Bigelow's famous revised edition of Franklin's autobiography is announced by Lippincott as speedily forthcoming.

—An exchange says that it is a sort of poetic justice that, as Moses deserted the blacks, one of the Blacks should in turn desert Moses.

—Five hundred dollars is the entrance fee to the *Creme de la creme* club in London. It is the highest priced and newest club in England.

—New York is going to have an insurance company for plate glass windows. This will be the cause of a great many accidental breakages.

—Madame Ratazzi at a recent royal ball in Florence wore $120,000 worth of diamonds and $40,000 worth of lace. Talk of your shoddy displays after that.

—Bull Run Russell has written a novel, which is said not to show such remarkable powers of invention as did his letters from this country to the London *Times*.

—The Hon. John Magee, who is lying dangerously ill at Watkins, N. Y., is worth between $40,000,000 and $50,000,000, principally in Pennsylvania coal mines.

—Carleton, of New York, is preparing Menkin's rhyming effusions, and will soon issue a fine edition of them. Carleton is noted as a publisher of funny things.

—A man in St. Louis has been arrested and put under $500 bail for his appearance before the Grand Jury. His offence is that, quite common here, of selling obscene papers.

—*Judy* has found a resemblance between the King of Dahomey and a famous painter, because both are men of color, celebrated for the manner in which they execute their subjects.

—Most of the war material for the Abyssinian expedition goes through the Suez canal, which is open for small vessels. Thus France reaps pecuniary benefit from England's last barbarian war.

—The first pic-nic of the season came off in Memphis last Friday. The *Post* goes into raptures over youth, beauty, shrubbery, Father of Waters, sunset and other equally pleasant things, including a good dinner.

—On Saturday, in St. Louis, the wind was so high that it blew down a brick blacksmith shop. Augustus Serri felt hurt when the roof alighted on his head, but it did not quite extinguish him, and he is recovering.

—The new Methodist edifice to be erected in Washington is to be gothic in style and $200,000 in price. Shades of Bascome and any other Methodists of fifty years ago! What do you think of this for a meeting house?

—Beaver, Pennsylvania, is troubled with a traveling harper who gives people the dumps by playing Lanigans ball in a very discordant manner. We think he has been in our town. In fact half a dozen of him must have been here.

—Ludwig, of Bavaria, sticks to his determination of abdicating. Otho, his successor, does not want to be King any more than Ludwig, and if Ludwig should ever marry and have children, they would have a claim on the throne. The thing is mixed.

—A lot of ladies (?) got into a row in Little Rock, at the house of a Mrs. Kinnamon. Mrs. Crow killed Mrs Killburry, firing four shots from a revolver at her. Mrs. Crow and Mrs Kinnamon are in jail. The green eyed monster is responsible for the transaction.

—Tietjens, Nillssen and Clara Louise Kellogg are the *artistes* competing for public favor the present season in London. We would like, if we ever did bet, to bet on the Kellogg, although the others are, excepting M'lle. Lucca, the most renowned cantatrices in Europe.

—Two men, hunting in the woods near St. Joseph, Missouri, found among a pile of drift wood a rough wooden box, containing two skeletons, supposed to be those of a man and woman, and showing signs of very rough usage. A double murder has evidently been committed.

—Johnson go Bragh is Miles O'Reilly's latest poetical gem. Miles mistook his vocation when he turned poet, and has been trying to turn wit ever since, but his success in that line can scarcely be called brilliant.

—Undine is to take its place in Chicago this month again. The fair Water Nymph has escaped once more from Kuhleborn and the rest of her hydropathic relatives, to win her way into the hearts of Chicagoans through the graceful limbs of some fair dansеuse with an unpronounceable name.

—There are 4,865,000 men in the standing armies of the principal countries of Europe. By adding the armies of the smaller countries, including Sweeden, Denmark, Bavaria, Wurtemburg, Saxony, Belgium, Turkey and the German duchies, the number will probably amount to 6,000,000.

—A blacksmith in Grand Rapids, Mich., has fallen heir to $3,000,000, and has come into his property. There seems to be a glut of unexpected millionaires now-a-days, and it must be very pleasant, indeed, to have a huge fortune drop on you from the clouds. Pittsburgh clouds have not been generous in this way.

—The women of Topeka, Kansas, met the other day in regular convention and nominated one of themselves, a Mrs. Crow, a member of the Board of Education in that county. Kansas seems to be the legitimate field of all sorts of queer or absurd political and religious movements, just as Central New York once was.

—Wade Hampton, the handsomest, dashingest, most thorough bred gentleman in the State, and probably at one time in the rebel army, has been nominated for Governor of South Carolina by the Democrats. If things ever come to such a pass that a rebel takes the Gubernatorial chair in any State, we hope that it may be such a man as this.

—A sort of tardy justice has at last been done to the ancient belle of Baltimore, the Princess Bonaparte *nee* Patterson. It has pleased the Emperor, who has heretofore ignored the claims of his cousin, the son of this lady, and has called him invariably Mr. Patterson, to appoint him "Officer of ordinance to the Emperor," under the name of Captain Bonaparte. This acknowledgment of his right to the name will be welcomed by the Baltimore Princess.

—A quiet and peaceable shoemaker named Patrick Daly, residing in Springfield, Mo., got on a spree on the last day of March and becoming excited beyond his wont, drew a knife with which he declared his intention of enforcing his views on the body of a bar keeper. Bar keeper caught the excitement from Patrick and flung a whiskey glass at him, striking his eye, bursting the eye ball and of course destroying the sight. Daly is no longer excited and wishes he had never been so.

—An amusing scene took place in Houston, Mo., a few days ago. Two Campbellite preachers of some fame were announced to preach on a certain week day night. A large crowd assembled, and waited for three quarters of an hour after the appointed time, but the Campbells weren't coming, and so some one proposed a dance. Fiddlers were easily procured, and midnight found one of the jolliest balls on record, at its height. The moral is that delay leads to balls and pleasant evenings.

—The Wellsburgh *Herald* accuses some Steubenvillians of starting coal mines in Ohio, and then undermining the Ohio river, and thus actually mining for and getting coal in Virginia, without tax and without price. This, the *Herald* says, must be put a stop to. How it is to be done seems to be a mystery. If the State of Virginia bores holes in the ground, until it finds the offending Ohio miners, it may have a long job before it. The Steubenville *Herald*, however, says that the Wellsburgh paper is misinformed, and that no mines in that neighborhood go under the river.

—The *Round Table* wants to have duelling re-established. For absurd mis-statements, and outrageous falsehoods, the *Round Table* stands without an equal, and yet it is to prevent such things in journalism that it wants the code of honor again to go into effect. How would the editor of that journal like to be called out and forced to fight every man who was insulted by the statement, made some time ago in the *Round Table*, that, with few exceptions, all of the so-called ladies of New York were drunkards." Not very much probably, and yet he sets up the standard of immaculate journalism, and holds it aloft with hands as much soiled from dabbling in dirty articles of this kind as are any hands in the nation.

—The Gaines' will case has at last been decided. It is one of the most curiously, interesting will cases on record, well worthy a prominent place among the *causes celibres* of the country. Mrs. Gen. Gaines having now been decided to be actually the legitimate child of her father, Daniel Clark, comes, after thirty-six weary years of legal proceedings, doubt and anxiety, into a property valued at about $6,000,000, which makes her, it is said, the wealthiest woman in America. Small, dark, vivacious, entertaining and remarkably well preserved (for Mrs. Gaines is no longer young) this Creole million heiress is probably just now the most triumphant woman in the world, and she has given the best years of her life for this triumph.

—Lord Neavis, an eminent Scotch Judge, having become disgusted with the Darwinian theory has "pitched into it" in the following poetical effusion:

A deer with a neck that was longer by half
Than the rest of its family's (try not to laugh)
By stretching and stretching became a giraffe,
Which nobody can deny.

A very tall pig with a very long nose,
Sends forth a proboscis quite down to his toes,
And he then by the name of an elephant goes,
Which nobody can deny.

An ape with a pliable thumb and big brain,
When the gift of the gab he had managed to gain,
As a Lord of Creation established his reign,
Which nobody can deny.

—The vaults of a lager beer brewery in Mauch Chunk on Monday last fell in and buried the foreman, Mr. Kauff, in the ruins. The masonry was poor and the frost in coming out of it, weakened it so that the collapse was the consequence. Mr. Kauff was killed.

RIVER NEWS.

The river rose about eighteen inches at this point during Tuesday night and yesterday morning, and it appeared to be about at a stand in the afternoon with seven feet in the channel. The rise is in the Monongahela, the Allegheny, as yet, having risen but very little, if any. The weather yesterday was cloudy and cool.

There have been no transient arrivals since our last report; the Kenton, we suppose, would get off last evening—she would have left early in the day had it not been for the stormy weather.

The Argosy, from Cincinnati, was due last night, and, according to advertisement, she will clear again to-day. Capt. Lew Vandergrift is still in command, and Mr. W. H. Scott has charge of the office.

The Grey Eagle arrived and departed for Parkersburg, and the J. N. McCullough, Capt. Geo. D. Moore, is the regular packet for that point to-day. The Bayard will be ready, it is said, to take her place in the trade to-morrow.

The St. Charles is due here from Cincinnati to-day, and will return as usual to-morrow—at noon.

The Echo is the regular packet for Oil City to-day, and passengers and shippers should bear this in mind. She leaves as usual at 4 p. m.

The Glasgow, Capt. Geo. W. Johnston, is filling up steadily for the Upper Mississippi, and will probably be ready to leave to-day. The Emma No. 3, Capt. J. H. Marratta, is also loading for the same destination.

The Kate Robinson, Capt. Robt. Robinson, will be the first boat out for Cincinnati and we hope she will receive, as she deserves, a good trip. Messrs. Palmer and Wherry are associated together in the office.

The Delaware arrived from Nashville on Tuesday night with a very good trip. The Jas. Rees arrived and departed for Wheeling.

It was very stormy yesterday at times, the wind blowing something like a hurricane, on a small scale. The Parkersburg packet, Grey Eagle, backed out from the wharfboat of the Company about noon, and after working for upwerds of half an hour to get straightened up with her head down stream, failed, and was compelled to land and wait until the wind fell. The Jas. Rees, also, tried it and failed, and she, too, landed on the opposite side of the river.

The Kenton, for the Upper Mississippi, and the Armadillo, for St. Louis and Missouri River, cleared last evening. The Armadillo could have taken more freight, but what she lacked in freight she made up in passengers, as her cabin was full to overflowing.

The Ida Rees, of the "Rees Line," Capt. Albert, is announced to leave for Fort Benton this evening. The Ida is admirably adopted for the Upper Missouri, being of light draft, staunchly put together, and besides, she is in excellent condition generally. The Ida will be followed by the Silver Lake, Capt. Todd, and Importer, Capt. Williams, also of the "Rees Line."

The Allegheny marks indicated seven and a half feet last evening.

Referring to the suit of the Globe Insurance Company against the owners of the steamer White Cloud, for cargo lost by the sinking of that boat, a pilot writes the following to the St. Louis *Republican*:

If the owners are to be held liable for every accident that occurs to a boat, the result must be to drive every man who has any property out of owning steamboats, and throw that kind of property into the hands of a class of men more dangerous to insurance companies than such accidents as the White Cloud's. And, if I mistake not, the Globe Insurance Company will do more injury to her stockholders by gaining this suit than to have paid the money, as the policy required, and for which the company was paid the regular insurance premium, and let it go as other losses. But the matter in which I have a personal interest is the liability of pilots. I learn, on inquiry of an able lawyer, that if the owner of the boat is liable to the insurance company for the sinking of the White Cloud, then the pilots are liable to the owners; and if the suit goes against the owner, he can sue the pilot, and make him pay the amount, if worth it. Now, if this be true, and I suppose it is, no man who has any property can afford to pilot hereafter, because, if by hard work he has secured a home for his family, he may have it all swept away by an accident, and my observation and experience satisfy me that the best pilots are liable to accidents sometimes.

They say that the wreck of the Belle Memphis, on which the White Cloud sunk, was a known object, and therefore it was carelessness to strke it. If any one will take the trouble to inquire, he will find that a majority of the boats sunk are sunk by striking known objects that lie in or close to the channel where the boat has to be run. For instance, the Paragon, sunk a few weeks since, was the fifth boat that has been sunk and badly damaged by striking the same wreck. The Baltimore sunk on the wreck of the Altona, a well known obstruction. The Platte Valley sunk on a known obstruction, and the famous rocks in the crossing below Cairo have been the cause of numerous disasters. How many boats are sunk and damaged so as to take water and injure cargo by running against the bank? and no one will deny that the bank of the river is a known object.

The truth is, the best pilot that ever turned a wheel is liable to make a mistake, especially at night, and if he is to be held responsible for every such mistake, the sooner we all quit the business, and go at something else in which we do not risk all we have earned by an accident, the better for us; at least that is the way it strikes me.

The safe of the Adams Express Company was found Saturday, by men from California, who are now dragging the river for part of the wreck of the Magnolia. One of her cylinders and flanges have also been found.

Steam towing is hereafter to be tried upon the New York canals. A canal company has been formed in Syracuse to build a steam tug, and apply to new plan for towing on the Erie Canal. The tug is to tow canal boats in trains. It is claimed that the new method will reduce by one-half the cost of freighting and the length of time between Buffalo and New York.

We clip the following from the Cincin-*Commercial*, of Tuesday: The Armenia passed down from Pittsburgh to St. Louis, full of freight and people. The New State came in from Wheeling and was preparing to depart for Louisville last night. The Argosy, Capt. Vandergrift, returned to Pittsburgh on Sunday. The Mary Davage and barges passed up from St. Louis to Pittsburgh. The Melnotte arrived from Pittsburgh. The America turns over her Nashville freight—about 50 tons—to the Pine Grove and returns to Pittsburgh.

A St. Louis telegram, under date of Monday, says: Seven steamers left Saturday and yesterday for the mountains, some with freight at the low rate of 4½c per 100 lbs. Wauanita arrived yesterday and leaves to-day for Omaha. Argonaut arrived this morning. Nineteen steamers left this port on Saturday. The Missouri is falling ot Omaha, and stationary at St. Joseph. The Columbian, from Omaha to St. Louis, sunk on Saturday below Glasgow, but was soon raised. She is due here to-day. Lake Pepin opened yesterday. The Phil Sheridan, from Dubuque, is the first boat through to St. Paul.

GOLD closed yesterday in New York at 138½.

ELSEWHERE will be found a very interesting biographical sketch of GEN. JAMES S. NEGLEY, the soldier hero of Allegheny county.

ONE of the President's letter-writing confidential friends telegraphs to a western Democratic journal that General EMORY is to be removed from command at Washington "not for what he has done, but for what he aimed to do in acting in party interest against the President."

OUR NEIGHBOR of the *Dispatch* concludes a very well considered article, upon the evident necessity for the Registry law, which we printed yesterday, with a reference to the illegal votes which were polled for the Democratic ticket last October, and very pertinently remarks as follows:

"Should Judge Sharswood become satisfied, from an examination of the evidence taken at Philadelphia and Harrisburg, (and it is his duty to examine it,) that he holds his high position through the illegal votes polled for him, and that Judge Williams had really a clear majority of the legal vote cast last fall, we shall expect him to at once resign—and, from the high character which he has ever borne for integrity can have no doubt such will be the course he will pursue. Nor would it be just for him, or indeed any one else, should such be the case, to oppose the election of Judge Williams next fall to an office which he would now fill but for illegal votes—and to which he is justly entitled."

THE INCREASED MAJORITY for Gov. ENGLISH, (Dem.) in Connecticut was due to the enormous naturalization in the cities and large manufacturing towns. Indeed, it was only that which has re-elected the Democratic candidate. The Republican gains, tho' small in each precinct, were uniform and general throughout the rural districts of the State, but have been more than overbalanced by the naturalizations in the large towns, and by careful but systematic colonization of imported roughs from New York along the lines of railway. In the five towns alone of Hartford, New Haven, Bridgeport, Bristol and Norwalk, the Democrats gain, through the means we have specified, some 1,025 in their majorities. The Republican vote is uniformly increased, but not in the same proportion nor by the same aids. Our majority in the Legislature, largely increased by the action of the country districts, is confirmatory of the view we have taken.

Wisconsin elects the Republican candidates on the Judicial ticket by some 3,000 to 4,000 majority.

The charter elections in numerous towns and cities of Indiana and Ohio, have resulted, on the whole, very favorably for our friends.

THE RADICAL papers, including the Philadelphia *Press*, Harrisburg *State Guard*, and the Pittsburgh *Gazette* are copying and endorsing a complimentary notice of Hickman, which says:

"He is too valuable a member to be spared from a public body like our State Legislature, and is so esteemed in all parts of the State. He is thoroughly honest, cannot be bribed or frightened off, and we hope his native county will return him again next year."

And this is the man who, on Thursday last, in the Pennsylvania Legislature, proclaimed that negroes were better than foreigners and should have the preference to vote!—*Post.*

So far as relates to the GAZETTE, the foregoing extract embodies all the moral qualities of forgery. The impression sought to be conveyed is that we approve the harsh things Mr. HICKMAN was quite recently reported as saying of the Irish. Nothing can be further from the truth, and our cotemporary knows it. The same morning in which we published the telegraphic report about Mr. HICKMAN'S speech, we dissented from the disparaging remarks it contained in as forcible language as we could readily command. Nor have we since endorsed, to the best of our recollection, a complimentary notice of that gentleman; though, if we had, we do not see what that has to do with the matter. Not long ago we had occasion to write some kindly words of the *Post*, and we wrote what we thought; but we do not suppose anybody understood us as thereby approving all the political heresies with which that sheet abounds. The public do not need to be told that the GAZETTE believes in the equality of rights of all men, until individuals incapacitate or disfranchise themselves by criminal conduct. In that faith, it will abide to the end, and will not be found tripping to gratify personal spite, party interests, or the prejudice of caste.

But the *Post* is careful to conceal the fact that Mr. HICKMAN denies having used the language, or inculcated the particular ideas, attributed to him. True, the accuracy of the report is reaffirmed; but, putting the worst possible construction upon the matter, it must be conceded, even by his honorable opponents, that Mr. HICKMAN uttered in the heat of the debate, sentiments by which he is not prepared to stand, and which he took the earliest occasion to repudiate. We should heartily rejoice if the *Post* should come so far under the control of reason as to recant, in an equally magnanimous manner, even a portion of the ideas which have made it offensive to large sections of the population of this city and county.

BUSINESS PROSPECTS.

Business is reviving generally throughout the land. Trade, building, travel and the avenues of transportation are all marked by a decided increase in activity, and, before the expiration of the current month, we confidently expect to record, as prevailing in all sections of the country, a degree of activity quite up to the usual standard at the opening of the Spring. The crowds of unoccupied mechanics and laborers who thronged the streets and public places of this city during the winter, are no longer seen in the numbers which elicited our regret a month or more ago. When our manufacturing establishments shall be once more in regular operation, labor of every kind will be again fully employed, and, we trust, at fairly remunerative rates.

There has been within the past year a large and general shrinkage of values in every branch of productive manufacture, as well as in articles of prime necessity for the general food supply, the only decided exception in this respect resulting from the partial failure of the wheat crop of 1867. Had this great leading staple yielded even its fair average last year, there would now remain no obstacle in the way of an equitable and convenient adjustment of values, in the receipts and expenditures of the operative classes, which should conform to the general reduction in all branches of trade. Only four months must elapse before the wheat crop of 1868—which promises, from the larger breadth of ground sown, and from the unusually favorable character of the winter, to be one of extraordinary abundance—will be coming on to the market, to supply the millions with cheaper bread. Long before that, we hope to see that revival of manufacturing industry which is so essentially needed for the prosperity and the comfort of a city like ours.

The exhaustion of the present stocks of our staple and miscellaneous productions, the stimulus which the prospect of good crops, with the removal of the tax as recently enacted by Congress, will give to consumption, the cordial and universal acceptance by all classes, both of employers and employed, of producers and of consumers, of a diminished standard of valuation for everything that is bought and sold, together with the relief of the commercial and political interests of the country from the unfavorable influences of the past seven years, and the restoration of a more perfect peace, by the successful issue of impeachment and reconstruction—all these causes will at a still earlier day, begin to operate most beneficially in re-establishing and increasing our material prosperity. The year of a Presidential election has usually been found to be unfavorable to any great degree of financial steadiness or general business activity. We feel justified in the belief that the present season will prove an exception to our preceding experience in this respect, and that, with a quiet and orderly political canvass, the result of which is already a foregone conclusion, and with the final adjustment of these embarrassing questions which is now close at hand, the country may anticipate a very early and decided return to its former state of healthy and vigorous progress in material development.

FRUIT PROSPECTS.

Some days ago the mercury took a sharp turn downwards, and has held there up to this time. So cold has it been as to awaken serious apprehensions for the fruit crop. In consequence, we have taken pains to ascertain, as far as practicable, the judgments of fruit growers of experience and authority Very uniformly they incline to the opinion that in this region, so far, the fruit is not damaged much, if any. They explain that the last autumn was uncommonly favorable, warm weather continuing until late in the season, fully maturing and hardening the fruit-bearing stalks and twigs. If winter had closed in early, these would have been immature and succulent, and exceedingly liable to perish by freezing during the winter, or by low temperatures far on this spring. This liability does not exist the present year. The stalks and twigs ripened thoroughly, and consequently have more than ordinary vitality and power of resistance to cold in them, which affords much larger grounds for hope than would otherwise exist.

A few days ago, the indications of abundance of fruit were all that could be desired. Peaches had indeed, experienced slight injury, but pears, apples and all other varieties, were in as good case as was ever known. What disaster, if any, resulted from the storm yesterday, cannot yet be told, nor until there have been some days of sunshine. We are glad to know that the fruit-growers do not take a sombre view of the situation.

Grapes, which are of superior consequence in this vicinity, are reported to be in no danger as yet.

In view of the facts as thus presented, we shall not set up a lamentation over the prospective failure of the fruit until more cogent reasons shall be disclosed than now appear to exist.

—In this connection it is not amiss to remark that winter grain is looking remarkably well. By reason of lack of rain, in the fall, it was slow in springing up, and did not promise altogether well. But the uniform covering of snow gave it protection, and it is now making amends for its tardiness. Grass, too, is looking finely, and with copious rains in May, which the weatherwise say, are prognosticated, the hay crop will be large. So far, then, there appears to be no reason for distrusting Providence, by anticipating a scanty supply of the necessaries of life.

MAJOR GENERAL NEGLEY.

This gentleman has been brought forward as a candidate for Congress in the 22d district, to succeed Mr. JAMES K. MOORHEAD, who declines a re-election. It savors of supererrogation to tell the people of Allegheny county who he is, and what claims he has upon their confidence and support. Born at East Liberty, in 1826, he has lived here all his days, except when absent in the military service of the country, and has so borne himself throughout that none of his fellow-citizens are better known, or have stronger claims either for respect or promotion.

His education was interrupted in the collegiate course, at his nineteenth year by his enlistment in the army destined to serve against Mexico. His relatives and friends attempted to dissuade him from going, and the legal authorities even were appealed to on account of his minority, to nullify his enlistment; but, with the spirit and decision that have always characterized him, he determined to go, in spite of friends and family. Seeing this, his family desisted, and, as a private in the First Pennsylvania Infantry, he made the campaign from Vera Cruz to the city of Mexico. While sharing in the seige of Puebla, news reached his friends that his health was failing, and they procured his discharge, but he indignantly refused to accept of it, and remained on duty as a Sergeant, to which rank he had been promoted.

On his return home, after the war, he devoted himself actively to agriculture, and passionately to horticulture. But in the gratification of his love of beautiful flowers he did not lose his passion for arms. His military ardor was not cooled by the peaceful pursuits of vine-yards and gardens; but during the thirteen years of calm which followed the Mexican war, he took great interest in militia matters; and among his last acts as a Brigadier General of Pennsylvania militia, he earnestly urged on the Legislature the thorough reorganization of that arm in view of the civil war, which he declared to be already threatening the country, and which led him to offer to the Governor, December 1, 1860, the service of a brigade of volunteers. Gov. CURTIN did not think the time had arrived for raising troops, but, April 18, 1861, he summoned General NEGLEY to his aid, and at once commissioned him a Brigadier General, in order to secure his assistance in organizing the immense force of volunteers who rendezvoused at Harrisburg.

He was commissioned in the three months' service, and engaged under PATTERSON in the Northern Virginia campaign, commanding in the only engagement of any importance fought by that army.

He re-enlisted a brigade of three years' men, and, September 1861, was ordered with it to Kentucky. He participated in the march on Nashville, entering that city in February 1862. Thence, he was ordered to Columbia, Tennessee, in command of the district, with orders to protect the rear of BUELL'S army, then marching on Shiloh, and also the division of MITCHELL moving on Huntsville. This he did with great success, making several important raids. One of these was to aid MORGAN'S division then beseiging Cumberland Gap. It embraced a rapid movement on and the bombardment of Chattanooga. On his way he fell in with and dispersed ADAMS'S corps of rebel cavalry. June 7th, he bombarded the city for several hours, demonstrating as if he intended to cross the river. To save Chattanooga, the enemy abandoned Cumberland Gap to MORGAN. As soon as that was done, NEGLEY retired to Columbia and resumed duty as district commander, and dispersing guerrillas and rebel cavalry. While thus holding that point, he suggested to Gen. BUELL, through Gen. MITCHELL, the great strategic importance of holding Lowdon Ridge with the mountain passes and river-fords, in order to prevent BRAGG from crossing into Kentucky. The event justified the importance of this suggestion by revealing the serious mischief which resulted from its neglect by his superior officer. August 31st, 1862, he was ordered to evacuate Columbia and retire on Nashville. This he did deliberately, although harrassed in his retreat by the forces of the enemy. He carried off large amounts of grain, cattle and stores, though he was forbidden to touch the latter. He employed the negroes as teamsters, and subsequently upon the fortifications at Nashville.

The movements of BRAGG, which required the abandonment of Columbia, also demanded the partial evacuation of Nashville, and BUELL selected NEGLEY to garrison the city with his own and PALMER'S divisions. When the main army marched into Kentucky after BRAGG, NEGLEY found himself besieged in Nashville by BRECKINRIDGE, MORGAN, FOREST and ANDERSON. He kept strict watch, made important sallies, in one of which he surprised ANDERSON in his camp, routed and dispersed his force, and came near capturing that officer, who succeeded in escaping on an engine that happened to be at hand. A few days after he won marked honor by his repulse of their combined attack on the city. At the battle of Stone River, NEGLEY commanded a division of the centre corps. On the first day he fought successfully and desperately, during a forenoon which seemed to be endless, until, by the defeat of the right wing, his flank was exposed, and he was compelled to retire to the line of reserves. Here he fought for two days more. On the afternoon of the third day, the battle having been transferred to the left, he made a counter-charge upon the advancing columns of the rebels under BRECKINRIDGE, broke and routed him, pursuing them into their intrenchments, at a cost to the enemy of *eighteen hundred killed and wounded men.* This fact, attested by the rebel records of the war, shows the engagement to have been one of the most desperate and sanguinary of all the battles of the rebellion. For this gallant service he was promoted to be a Major-General.

During the campaign of Tullahoma and Chickamauga, NEGLEY commanded the same division, and took part in the operations at Beach Grove, the passage of the Elk and Tennessee rivers, and the battles of Dug Gap and Chickamauga. He commanded the advance of the center column of ROSECRANS'S army in crossing Lookout Mountain. The three columns were widely separated, fifty miles intervening between right wing and center, and thirty between left wing and center. BRAGG concentrated on the center. ROSECRANS ordered NEGLEY to advance and take Lafayette, Ga. NEGLEY was advised, and so reported, that BRAGG was concentrating at that very point, but the report was discredited by ROSECRANS. NEGLEY advanced cautiously, and, September 11, encountered the enemy. He drove him for some time, but soon found BRAGG'S whole army on his front and flanks. NEGLEY was not to be caught, but succeeded in extricating himself without the loss of a wagon. The engagement lasted all day, and was the first premonition that ROSECRANS had of danger. NEGLEY'S discretion and valor were officially commended by ROSECRANS and THOMAS.

ROSECRANS did not get his army concentrated before BRAGG attacked him at Chicamauga. NEGLEY'S division was moving when the battle began. Marching in the direction of the sound of the artillery, he reached the field just in time to fill a gap created by the dispersion of VAN CLEVE'S division. In the fight that ensued, the rebel General PRESTON SMITH was killed, and the enemy driven in confusion.

On the second day NEGLEY'S division was not so fortunate. One brigade was sent to the left, another in the center, and the third held as a reserve. Later NEGLEY was taken from the command of the division and placed in command of a number of batteries, which had been separated from their infantry supports on a new line to which it was proposed to retire, and which would cover the retrograde movement. Before this was accomplished, the right wing and center of the army broke and the troops felt back in confusion. The enemy charged NEGLEY'S guns in great force, and moving upon the flanks threatened their capture; but NEGLEY carried off without infantry supports, the full number of fifty pieces.

Arriving at Rossville, he found himself, in the absence of ROSECRANS, McCOOK and CRITTENDEN, the senior officer in that part of the field, and immediately set at work to reorganize the forces. This done, he selected a strong position at Rossville Gap, and tried to open communications with THOMAS, but could not. But, soon after, THOMAS, having formed a junction with NEGLEY, ordered him to post his men on a line selected by him and give the enemy a warm reception. BRAGG attacked the next day but was repulsed, after which our army retired to Chattanooga, and the seige of that place followed. Soon after NEGLEY was compelled, through the unfriendly intrigue of two general officers, who were prompted both by military jealousy and political enmity, to demand from ROSECRANS a Court of Inquiry. The application was granted and the investigation resulted in his acquittal. The official record of the Court states that "General NEGLEY exhibited throughout the day (the second of the battle) and the following night, great activity and zeal in the discharge of his duties, and the Court do not find in the evidence before them any ground for censure."

In politics General NEGLEY has ever been a Whig or Republican. Always taking intelligent and liberal views of men and measures, he has steadily been in the advance in all great movements of public opinion, and has never been thrown into eddies by which so many prominent men have lost the confidence reposed in them. Clear-headed, ready, decided—understanding fully the great controversy which the American people are now engaged in settling, and having the heartiest sympathies for the right side—intimately familiar with the special interests of the Twenty-Second Congressional District—identified from birth with its people—he has peculiar qualifications for fitly representing them well in the House of Representatives at Washington. He has served his country acceptably, nobly, in times of danger, and in ways which cost the largest sacrifice of ease and comfort, and exposed him to the largest risks of personal harm, if not of life itself. Doubtless he would feel it to be an impeachment of his honor to insist or even insinuate that he made these sacrifices and incurred these risks with a view to political promotion or other selfish advantage. But in performing these duties, well and nobly, he certainly laid his fellow-citizens under strong and lasting obligations to him. When public services cease to challenge respect or to enforce recognition, it is safe to infer that patriotism has declined, and that lower considerations have assumed the control.

Nor need the claims of GEN. NEGLEY to the honorable civil distinction now sought for him by his friends, be rested exclusively or mainly on the ground of military reputation or performances. In point of natural capacity, of experience, of training, and all other equalities properly deemed essential in a Representative, he is at least the full peer of either of his competitors. He would fitly serve the district, and the district would entail honor upon itself by conceding honor and precedence to one who has on so many great occasions reflected honor upon it. Remember fellow citizens, those dark years of the rebellion, when you felt yourselves ably represented in the field by this gallant soldier, and then say if his friends are asking too much in his behalf, when they seek to make him their representative and yours in the Congress of the United States! The people of Allegheny county have all been animated by an ardent patriotiotism, and an appeal is now made to them to recognize and distinguish by special favor one who was among the foremost in the defense of the nation, and who made an honorable name for himself and his country in the recordsof the great War. JUSTICE.

The New Revenue Measures.

The Committee of Ways and Means are still very hard at work. They attended impeachment two days, and then shut themselves up during the day and evening in their private room at the Treasury Department, and went on with their work. They were so besieged by commissions from various sections at their rooms in the Capitol they had to leave. They have completed their work on whisky, oils and tobacco, and are now engaged in perfecting the remaining features of the bill. When finished and printed it will make a book of 250 pages, document size. The work of revising the revenue system has grown on the Committee at every step taken, but the task is so far completed as to render it sure that the Committee will be ready to go to the House with the bill at any moment the House is ready for general legislation. The bill provides for making a separate department of internal revenue and for giving the head of the department absolute power of appointment and removal of all revenue officers, and holds them responsible for the collection of the revenue.—*Washington letter.*

The Connecticut Election.

Connecticut is a hard nutmeg to grate. Some of the brassiest old Copperheads in America flourish within its borders. It is in the neighborhood of the city of New York, with her sixty thousand Democratic majority, and transportation is swift, easy, cheap and ample. The Democracy carried Connecticut yesterday, making a gain upon their majority last year. We suppose the Democratic success in Connecticut will revive their faith in the reaction, and check the tendency toward the nomination of Chase as the Conservative candidate upon the platform of the Constitution. There is just about enough encouragement for the Democracy in the Connecticut election, to insure the nomination by them of a thorough partisan for the Presidency, and to provide in the platform and the candidate all the conditions of defeat.—*Cincinnati Commercial.*

THE New York *Tribune* makes the following statement, and suggests that it is worthy of notice:

"Early in 1861, Governor Seymour visited the city, and here met the Hon. Charles H. Ruggles, of Poughkeepsie, of whom he asked, 'Judge, have you read the Confederate Constitution (then recently published)?' 'No,' replied Judge R.; 'I have glanced over it, but not read it attentively.' 'Well,' rejoined Governor S., 'I have read it carefully, and it is a better framework of government than our (Federal) Constitution. Now, why not end all our trouble by simply adopting that (Confederate) Constitution?'—that is, by making slavery a part of our fundamental law, every State irrepealably a slave State, every Territory a slave Territory, now and evermore, with Jefferson Davis as our President, vice Lincoln deposed. The Judge did not see it, and left."

THE COURTS.

District Court—Judge Hampton.

In the case of Rev. Shadrack Washington vs. Thomas M. Bell, action for malicious prosecution, the Court will charge the jury this morning.

John H. Sorg vs. the 1st German United Evangelical Church of Birmingham, action to recover on a mechanics lien. Jury was withdrawn and the cause continued.

John H. Kerr et. al. vs. Melchoir Verner, action in ejectment. Verdict for plaintiff for eight-ninths of the land in dispute, six cents costs and six cents damages, subject to the opinion of the Court on questions of law reserved.

Quarter Sessions—Judge Mellon.

In the case of the Commonwealth vs. Frederick Baum, indicted for fornication and bastardy, the jury failed to agree upon a verdict and were discharged. They retired at the adjournment of Court Tuesday evening, and remained out until two o'clock P. M. yesterday.

W. H. Shannon was tried and found guilty of malicious mischief, in demolishing a clock, the property of Mrs. Magdalena Molidore. Sentenced to pay a fine of six cents and costs.

Frank Walls, residing on the South side, within the bailiwick of Justice Barker, and represented as a troublesome character, plead guilty to two indictments for assault and battery, found on oath of John Fink. He was sentenced to pay a fine of $20 and costs in each case.

Anthony Form, butcher, was tried and convicted on an indictment for assault and battery, found on oath of Sarah Johnston.

Alexander Miller, team driver, was brought up to answer on a charge of deserting his wife, Rosannah Miller, some two months since. Mrs. Miller testified they were married by Alderman Butler, and resided together as man and wife on Boyd's Hill, for five months, paying eight dollars per month for rent of house and her husband earning twelve dollars per week. She knew of no reason why her husband left her. Miller was called, and in response to the Clerk's inquiry, "How do you swear?" said, in an undertone, "I swear by God I won't live with her." He gave no other reason for his conduct than that his wife "did not do her part," the burden of his complaint being that she did not prepare his meals in proper time, failing to get up in the morning after he had awakened her. The Court directed him to contribute five dollars per week to the support of his wife for one year, and to give security in $300 for compliance with this order.

Common Pleas—Judge Stowe.

The case of Knickerbocker Life Insurance Company vs. George Siegrist, impleaded with John Nusser and Ernest Hauck, on trial on Tuesday, resulted in a verdict for the plaintiff for $4,000, amount of the penalty of the bond conditioned for the payment of $2,190.

Paul Jacobs vs. Pennsylvania Railroad Company. On trial.

Libels Filed.

In the United States Court yesterday, District Attorney Carnahan, filed a libel against the brewery of Andrew Koenig, 33 Second street, Allegheny; also, against forty barrels of Schenck beer and seventy barrels of lager beer, belonging to the same party, who is charged with carrying on his brewery uninteruptedly since October last without making the required returns to revenue officers. Monition issued, returnable on 20th inst.

A libel was also filed against Charles, Michael and James Locker's distillery, at Scranton, Pa. Monition returnable 23d inst.

A libel was also filed against 138 barrels of cut-and-dried tobacco and 70 barrels of stripped leaf, belonging to Arbuckle, Jas. R. Murphy, Charles Koethen and other grocers and tobacconists of this city. The tobacco, it is alleged, had not been inspected or branded.

Amusements.

OPERA HOUSE.—The benefit of Mr. Louis Garber, the gentlemanly usher at the Opera House, last night, was a decided success. The "Serious Family" was presented in a most admirable manner, after which Mr. A. M. Ray recited "Sheridan's Ride." To-night Mr. Joseph E. Hartel, leader of the Orchestra, takes a benefit, and we anticipate a full house. The engagement of Forrest commences Monday evening. The box sheet for the sale of seats opened yesterday, and we are informed that the seats are being rapidly taken.

PITTSBURGH THEATRE.—Mons. Jevani is the principal attraction at the Old Theatre this week. His feats are truly wonderful, especially the leap from the upper tear to the trapeze on the stage. M'lle. Louisa Fisheure, the premier danseuse, is no small attraction, and Miss Agnes Sutherland, the vocalist, has a host of admirers. The gift matinees, on Saturday afternoons, are popular affairs.

MASONIC HALL.—The celebrated Arlington Ministrels will commence an engagement of three nights at Masonic Hall this evening. The Arlington troupe is said to be one of the best in the country in many respects. Their vocal music is unrivalled, and their witticisms or "sharp-sayings" are not of that order usually heard at entertainments of that character. They will doubtless draw full houses during their short stay.

An Enjoyable Evening.

Any of our readers who wish to while away an hour or so with pleasure and profit, should attend the third Stereoscopticon Entertainment to be given in the North Avenue M. E. Church this evening at 7½ o'clock. We have attended a previous exhibition of this kind, and speak from experience of its nature. Aside from the meritorous object for which it is given, (the purchase of a Library for the Sunday School of the Church,) the display of the pictures, with the explanatory lecture, and the enlivening music interspersed throughout, combine to make an entertainment of a very attractive character.

EDITORS GAZETTE:—I am pleased to learn that Senator James L. Graham has consented to allow his name once more for the State Senate. "As a Pittsburgher, who has had frequent occasion to visit Harrisburg on business, I have felt proud of the position Senator Graham has there attained, and of the reputation he enjoys among his brother Senators. All speak of him as an industrious, attentive, capable and at the same time modest and unpretending gentleman, who has shown himself to be one of those rare men, who, in prosperity and success, preserve the simplicity of their character." Gentle as a child, yet firm as a rock in the cause of justice and right, Allegheny county will do hereself honor by again endorsing so faithful a public servant.

GOOD HEALTH

IS THE GREATEST OF ALL BLESSINGS,

And to preserve it is the privilege and duty of all.

DR. SARGENT'S

ANTI-DYSPEPTIC AND LIVER PILLS

Are the great severeign, speedy and sure cure of the age, for Dyspepsia, either in its mildest or worst stages, and hundreds who have long suffered under the inflictions of this most annoying and dangerous disease, have by the use of this invaluable medicine been restored to health and the enjoyment of life.

Is your Liver in a torpid condition of inaction, thereby deranging the whole system?

DR. SARGENT'S LIVER PILLS

Will speedily remove the secretions and restore it to a healthy state.

Are you troubled with loss of appetite, foul stomach, eructations of wind, sick headache and general derangement of the digestive organs?

DR. SARGENT'S LIVER PILLS

Are a sure, safe and permanent remedy, and by their mild but certain action will cleanse, renovate and reinvigorate the system.

DR. SARGENT'S LIVER PILLS stand high as one of the standard medicines of the age. For the cure of all diseases arising from a disordered state of the liver, as can be attested by the certificates of large numbers of our citizens who have been benefited and cured by their use.

These Pills can be obtained, either Plain or Sugar Coated, from all Druggists in the country.

UNRIVALLED.

Nothing that has ever been known or heard of a tonic adds so much to the resistant power of the human system, under circumstances unfavorable to health, as HOSTETTER'S STOMACH BITTERS. If you would escape the intermittent fevers, fits of indigestion, bilious attacks and bowel complaints, of which cold and damp are the frequent causes, use the BITTERS as a PROTECTIVE MEDICINE. This is the wisest course; but if already an invalid, try the preparation as a RESTORATIVE. In either case full reliance may be placed upon its efficacy.

There is no mystery about the causes of its success. It is the only stomachic and alterative in which are combined the grand requisites of a mild, pure and unvitiated vegetable stimulant, with the finest selection of tonic, anti-bilious, anti-scorbutic, aperient and depurative herbs, plants, roots and barks that have ever been intermixed in a medicinal preparation.

The Bitters have this distinctive quality, which is not shared, it is believed, by any tonic, tincture or extract in the world. It does not excite the pulse, though it infuses a wonderful degree of vigor into the nervous system, and strengthens and sustains the whole physical organization.

California and Australia have emphatically endorsed it as the MINER'S MEDICINE *par excellence*, and in Spanish America and all the tropical climate, it is considered the only reliable antidote to epidemic fevers.

The already immense and still increasing consumption of HOSTETTER'S STOMACH BITTERS, backed by many of the most influential physicians throughout the country, should convince the most skeptical that it is worthy the confidence and approbation of all.

ANOTHER CURE OF DEAFNESS.

I lost my hearing during the last year. Part of the time I was totally deaf. In April of this year I was induced, from an advertisement, to make application to DR. KEYSER, 120 Penn street, Pittsburgh. After having tried various medicines from doctors, without any benefit, I have been under Dr. Keyser's treatment now for nearly two months, and am entirely restored to my hearing, so that I can hear a pin drop. JOHN SCANLAN,

Coal Bluffs, Washington Co., Pa.

ANOTHER CURE.

A man called to-day at Dr. Keyser's office to inform him of a great cure made by his LUNG CURE, or PULMONARY RESTORATIVE. Ilst these cures are made with the Doctor's preparations, he desires it to be distinctly understood that most of his great cures are made in accordance with the established laws that govern the science of medicine, in which he has been engaged for the past twenty-five years. Last week he was also in receipto f a letter from a clergyman in the State of Ohio, detailing another most wonderful cure.

"The play hinges upon the absurdities of a female Assessor, a female Judge of the Supreme Court, and a female politician, and the ludicrous aspects of a state of society in which women make proposals of marriage to men, and every bachelor is exposed to two hundred thousand offers, more or less. These ideas are carried out with great humor. The play has caused a marked sensation in Boston, where it has been acted by some of the *elite* for the benefit of the Cretans."—*N. Y. Nation.*

"The Spirit of '**76**—not **1776**, but **1876**—is the name of a spirited parlor drama which has given lively pleasure to select social circles in Boston. It gives a somewhat extravagant, and therefore amusingly, emphatic picture of what might be the condition of society and the facts of daily life, if the extreme aspirations of the Woman's Rights party were practically fulfilled. Very witty is the dialogue, very comic are the situations, very incongruous the relative positions."—*N. Y. Evening Post.*

"A delicious *morceau*, made a capital success by the delicate humor, the many sharp hits and the amusing situations which it introduces."—*Boston Post.*

Lightning Rods

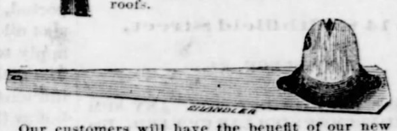
Munson's Copper Tubular Lightning Rod,

WITH

SPIRAL FLANGES,

Has been erected on thousands of buildings in all parts of the United States, and in a test of ten years no instance of their inefficiency has occurred. This Rod has received the First Premiums at the Fairs of nearly all the States, and every place it was ever exhibited. It has been endorsed by over five hundred Professors in Colleges, and other scientific men, as the best Rod ever invented, possessing all the elements necessary to protect buildings from lightning. It is made of copper, because this is the best metallic conductor, except silver, and does not rust. Its spiral flanges and rough edges dissipate electricity and double its conducting power. Electricity uses only the surface, never the heart of a metal. One flange of this Rod being open, the inside surface is available as well as the outside; altogether, its power surpasses twenty common iron rods or a solid copper rod an inch and a half thick, and has the additional advantage that it is continuous, and can never become disjointed or otherwise get out of order, but will endure as long as the building stands on which it is erected. Our points are made on the most approved method, and our Insulators are unsurpassed.

No holes are made in slate or tin roofs.



Our customers will have the benefit of our new Insulator, patented in **1867**. The price is thirty cents per foot, and three dollars for each top; this includes the cost of putting the rod on buildings—there are no extra charges of any kind. Within the past few years we have erected this rod on many churches and other public edifices in Pittsburgh and vicinity, and upon thousands of dwellings and barns. For the superior character of this rod we are permitted to refer to Rev. I. C. Pershing, D. D., President Pittsburgh Female College; Philotus Dean, Esq., Professor Natural Sciences, Pittsburgh High School; Geo. Woods, LL. D., Pres't. Western University of Pennsylvania.

Thankful for the liberal orders of past years, we solicit a continuation of public patronage.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 8, 1868.

Gold was firmer to-day without any material advance, although the outstanding short interest is very large, but, so long as it costs from 8 to 12 per cent. per annum to carry gold, speculators are not disposed to cover in the face of large payments of the treasury. For the present, there is more money to be made in stocks and bonds and speculators are more disposed to leave gold take its own course.

Government bonds were scarcely as high as last night; the reaction was too sudden, though expected. The Treasury has not been buying Seven Thirties during the last few days lor reasons unexplained, tne Internal revenue receipts being very large and enable the department to disburse the daily receipts, but it seems somebody has an axe to grind.

Stocks are firmer, with a strong tendency upward, however weak holders should be careful; the market is in a critical condition. In our city stocks a better disposition prevails, and bonds and stocks find purchasers that would not be looked at last week. Most of our banks will declare dividends in May, and on that account, are a desirable purchase.

Money, though easier, is still held high, and only first-class borrowers can be accommodated at reasonable rates.

Closing quotations as received by Ph. R. Mertz, were as follows:

—A fortnight since we noticed that the Secretary of the Treasury had revised his estimate for customs for the current fiscal year from $162,382,000 down to $156,065,000, allowing $38,000,000 for the third quarter, just closed, and only $37,000,000 for the fourth quarter. The third quarter, judged by the actual receipts into the New York office, will turn out $40,400,000, and the last quarter upon which we are now entering bids fair to yield at least $42,000,000; so that the original estimate for the year will after all be realized. We hope to see it exceeded by three or four millions.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 8, 1868.

CRUDE—The market is quiet and unchanged. There was not a single sale reported, in the absence of which we quote spot oil at 8¾c, and the same figure will apply to April and May, seller's option. The feeling to-day was "offish," under the influence of adverse reports from abroad, but as there is no stock here worthy of the name, and no decline as yet at Oil City, holders do not seem inclined to make the slightest reduction in order to effect sales. Indeed, the market is in a very unsettled and unsatisfactory condition, and what is worse still, there are no indications at present of any immediate improvement.

REFINED—The market for bonded oil was a little weak to-day, Antwerp having declined another quarter of a franc, 42½, but, as has been the case for months past, sellers are equally as scarce as buyers. We can report sales of 2000 bbls, in two lots of 1000 each, for October, at 29c; 500 for last half of May at 25½c, and 500 for last half of April, seller's option, at 25¼. June may be quoted at 26¼c, and July at 26¾ to 27c. All the year, buyer's option, nominal at 31c.

BENZOLE—We can report a sale of 500 bbls for immediate delivery in Philadelphia at 13c.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, April 8.—The weather is dry, but the market notwithstanding is not very active, as an advance in printed calicoes has a tendency to restrict sales. Sprague prints, 12c for fancies; 15½c for pinks and purples and 16c for shirtings. Pacific mills' prints have also advanced to 15c as well as Dunnells. Amoskeags command 14a14½c; latter rates chintz styles. Lowell, 12½c; Wamsutta, 10½c. Heavy Brown sheetings, best Eastern makes, steady and in request at 18¼a19c. White and heavy brown drills are still more slow at 17c. Other class of goods are without any important change. The general tone of the market is steady if not buoyant, but buyers are reluctant to pay enhanced prices for cotton fabrics, and the only purchase as yet is in moderate qualities to meet the most urgent necessities.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 8, 1868.

TO BOZ.

BY W. H. VENABLE.

Hear our three times three, before
Thou sailest from Columbia's shore—
Hero of the charm'd pen,
Loved of children, loved of men.
We have felt thy spell for years:
Oft with laughter, oft with tears,
Thou hast touched the tender part,
Of our inmost, hidden heart;
We have fixed our eager gaze,
On thy pages nights and days,
Wishing as we turned them o'er,
Like poor Oliver, for more;
And the creatures of thy brain,
In our memory remain,
Till through them we seem to be,
Old acquaintances of thee.
Therefore, hear our cheers before
Sailing from Columbia's shore.

In immortal Weller's name,
By the rare Micawber's fame,
By the flogging wreaked on Squeers,
By the hungry Jingle's tears,
By the Beadle Bumble's fate,
By the hands of shrewish mate,
By the famous Pickwick Club,
By the dream of Gabriel Grubb;
In the name of Snodgrass' muse,
Tuppy's amorous interviews,
Winkle's ludicrous mishaps,
And the fat boy's countless naps;
By Ben Allen and Bob Sawyer,
By Miss Sallie Brass, the lawyer:
In the name of Newman Noggs,
River Thames and London fogs,
Honest Cap'n Cuttle's hook,
Pickwick's memorandum book,
Richard Swiveller's excess,
Feasting with the Marchioness:
By Jack Bunsby's oracles,
By the chime of Christmas bells,
By the cricket on the hearth,
By the sound of childish mirth,
By spread tables and good cheer,
Wayside inns and pots of beer,
Hostess plump and jolly host,
Stages for the turnpike post,

Chambermaid in love with Boots,
Toodles, Traddles, Tapley, Toots,
Betsy Trotwood, Mister Dick,
Susan Nipper, Mrs. Chick,
Snevellicci, Lilyvick,
Mantilini's predilections
To transfer his "dem" affections:
By poor Barnaby and Grip,
Flora, Dora, Di and Jip,
Peerybingle, Pinch and Pip,—
Hear our three times three before
Sailing from Columbia's shore.

In the name of gentle Nell,
Child of light, beloved so well,
Upon whose white, unmoving breast
We, weeping, saw the roses prest;
And by the grave where Smike was laid,
Round which his mournful cousins played;
By tiny Tim, whose plaintive tone
Asks God to "bless us every one;"
And by the sounding waves that bore
Poor little Paul to heaven's shore:
By each ideal thou hast given
Of mortal goodness fit for heaven,
By thy yearning toward the human
Good in every man and woman,
By every worthy deed and word
Thy cherished story-book record,
By every noble sentiment
Thy genius to the world has lent,
By every effort thou hast made
The cause of just reform to aid,
By all thy hope of man's relief
From want, and ignorance, and grief,
By all thy faith that coming time
Will soften pain and lessen crime.

And by thy never-failing trust
That God is merciful and just—
We send our blessing after thee,
Great preacher of humanity,
And give the three times three before
Thou sailest from Columbia's shore

CINCINNATI, OHIO.

A Genuine French Romance.

One of those little romances of which the French are so fond, has lately taken place in Paris, and is thus described in a journal:

Mr. Robert, an immensely wealthy and highly accomplished elegant, well known not only for his valuable collections of paintings and medieval relics, but for his rare skill as a designer and painter, hearing that one of his tenants, a Mr. B., whom he had never seen, kept one of the most extensive ateliers of fancy boxes and ornamental objects in France, called on him with a view to make his acquaintance.

Entering the counting room he found a good natured, eccentric gentleman of middle age, who greeted him, and exclaimed:

"I suppose that you also have seen my advertisement and come to apply for that situation as designer?"

For a joke, M. Robert replied that he had. M. B. supplied him with paints and brushes, and requested him to produce a design for a casket. M. Robert soon found that what M. B. really wanted was an artist who would strictly carry out his own ideas, and that these were pure, and formed on an extensive knowledge of art. In a short time he produced a sketch which suited the employer to a dot—"*a point.*"

M. Robert very gravely engaged himself, exacted good wages, and insisted on having several new articles of furniture placed in the room which was assigned to him. But when he was introduced to the work rooms and found one hundred and fifty girls, many of them young and beautiful, busily employed, and was informed that he would be required to supply them with designs and show the young ladies how they were to be carried out, the young artist began to feel as if he should have to be carried out himself—being very susceptible.

"Working for a living," said he to himself, "is not entirely devoid of attractions. Let us work."

M. Robert being an accomplished artist, delighted his employer, and he soon found a remarkable fascination in seeing his designs realized in steel, silver, enamel, or wood. He took a pleasure hitherto unknown in seeing his works in shop-windows and finding them in the boudoirs of his friends. The workshop life was of course concealed from "society," nor did his employer suspect that his artist was his landlord. But M. Robert soon found a more intense object of fascination in the daughter of Mr. B., a young lady who also took part in the duties of the atelier. This damsel was as remarkable for her accomplishments as for her extraordinary beauty, and M. Robert soon found that as regarded taste and culture in all matters which specially interested her, he had never met with any one like him. Step by step, the pair fell in love, and little by little the artist so ingratiated himself with the father, that the latter, after due deliberation, consented to their union.

Previous to the marriage the old gentleman one day spoke of a dowry. "I shall give Marie 50,000 fr.," said he, with a little air of boasting. "*Ah, mon garcon?*"

"And, I suppose," added M. Robert, gravely, "that I, too, must settle something on my wife. Well—I will."

This caused a peal of laughter, which was redoubled when the artist added:

"And I will settle this piece of property, house and all, with the building adjoining, on her."

But what was their amazement when M. Robert drew forth the title deeds, and said:

"You seem to forget that I am your landlord? Isn't my name Robert?

The young lady did not faint, but papa nearly died of astonishment and joy. There was a magnificent wedding, but the bridegroom has not given up business. He declares that there is as much amusement in being useful as in amusing one's self.

A Story from Paris.

A Paris letter tells the following story of a Twelfth Night *fete* in that city:

A wealthy family in the aristocratic Boulevard Malesherbes were amusing themselves in seeking the King's portion, or the ring in the festival cake, when a lady of the company says to the hostess:

"I wish my portion to be given to the poorest little boy we can find in the street."

The servant was dispatched on this freezing night, and not far from the house he found a ragged urchin, trembling with cold and hunger. He brought him up, was ordered into the saloon, where a thousand lights glittered, and a sparkling fire gladdened and surprised him. He drew his portion which the benevolent lady had promised, and as luck would have it, the little fellow found the "ring," (beans they use in Paris instead,) and of course, he was "King." They all shouted out that, being a King, he must chose a Queen. He was asked to do so, and looking round the company, he chose the very lady who had proposed to cede her portion of cake. He was asked why he chose her. He said:

"I don't know; she looks most like mother."

"Mother! whose mother?"

"My mother! I never knew her, but was stolen away from her, and here is her portrait!"

With this he drew from out his ragged coat a likeness, which proved to be that of the very lady herself, who, in Italy, had her child stolen from her, and now he turns up a poor little ragged Savoyard, dragging along a miserable existence in Paris, while his mother, by an intuition, perhaps, felt that in the air near to where she was, was one so dear to her.

A Lucky Old Lady.

An old woman of the middle class recently appeared in a jeweler's shop in Paris, and produced a bag of old gold and silver coins, which she wished to have made into buttons for a birthday present for her daughter.

"I hear," said she, "that such things are worn nowadays, and I'm determined that *petite* shall have as fine buttons as anybody."

"But madame, perhaps, does not know the value of these," replied the jeweler, who was both honest and learned in coins.

"Indeed I do," said the old dame. "Folks wanted me to believe they were rusty copper, and of no account, but I know they're good gold. They couldn't cheat me."

"But they have an additional value as curiosities," persisted the good man. And he explained to her, of which she had no idea, that some coins were worth twenty times their intrinsic value. Hearing this, the good woman produced a large number of brooches or clasps and other ornaments, which her father had disinterred from Merovingian graves in Burgundy, and which she had not hitherto dared to sell, from a current belief that they belonged to the Government. The collection, which was of incredible value, was purchased from her at a fair price, and now adorns the museum of Count de V——.

THERE IS A speck of war in Nassau—the same Nassau that during our war was the paradise of blockade runners. It appears that the Lower House of the Nassau Legislature, after an excited debate, passed, by five majority, a bill for the disendowment of the established Church. This bill was vetoed by the Executive Council, and the Lower House becoming indignant, sent a request to the Governor that the Legislature be dissolved and a new election ordered. This the Governor refused, as an appeal to the people would be fatal to the Government party, which is identified with the Church. The dispatches say the excitement runs so high that bloodshed is feared, and the Liberals have voted an address to the Home Secretary in England, asking that the Governor be compelled to conform to the wishes of the Lower House and order a new election.

THE ingenious English organ builder who invented the pneumatic lever, has perfected several other improvements in this grand instrument. In one of the organs, which he is now constructing both steam and electricity are impressed into the service, the result of which is to make it as easy, physically, to play the full organ, as to run the fingers over a piano forte. It was formerly a task that would speedily exhaust the strongest man.

CITY AND SUBURBAN.

THE CONSOLIDATED CITY

An act Supplementary to the Act Incorporating the city of Pittsburgh—Regulation of Suffrage—Inspection of Buildings—The Mayor's Powers and Duties—Special Provisions for Indebtedness and Taxation—Terms of City Officers, &c., &c.

The following is the act supplementary to the city consolidation act, passed last week by the State Legislature:

SECTION 1. Be it enacted, etc., That the officers of the city of Pittsburgh, elected on the 10th day of December, 1867, pursuant to the third section of the act of Assembly, entitled "a further supplement to the acts incorporating the city of Pittsburgh," etc., approved the 6th day of April, 1867, shall hold their offices respectively until the first day of February, 1869, and until their successors shall be duly qualified.

SEC. 2 That the qualified voters of said city of Pittsburgh, at all municipal and ward elections, shall hereafter vote by tickets printed or written, or partly printed and partly written, severally classified as follows: One ticket shall embrace the names of all city officers voted for, and be labeled "City;" one ticket shall embrace the names of all candidates for the City Councils to be voted for, and shall be labeled "Councils;" and one ticket shall embrace the names of all School Directors and other ward officers voted for, and labeled "Ward," and each class of tickets shall be deposited in a separate ballot-box, and the returns of city officers and members of Councils shall be made and counted in the same manner as heretofore provided for city elections, except that the same shall be returned to the Mayor within three days after said election, and by him delivered to Councils on the day of their organization.

SEC. 3. Each ward shall be entitled to two members of the Select Council, who shall be elected for the term of two years; provided, however, that at the election to be held in October, 1868, one of the members for each ward shall be elected for one year and the other for two years.

SEC. 4. That in the year 1868, and in the month of July every fourth year thereafter, the members of the Common Council shall be apportioned in the following manner: It shall be the duty of the Assessor of each ward to return under oath a true and exact return of resident taxables, to the President of the Common Council, on or before the first day of July in each year, when an apportionment is to be made; and at the first meeting of the Councils thereafter, a joint committee of five, two from the Select and three from the Common Council, shall be appointed, who shall examine the said returns and divide the whole number of taxables by sixty, and the quotient shall be the ratio of representation; provided, however, that each ward shall have at least two members. If any wards shall have an excess of three-fifths more than the ratio of taxables, it shall be entitled to an additional member.

SEC. 5. That all persons qualified to vote for State and county officers shall be entitled to vote at all elections held in and for said city, and so much of the sixth section of the act of April 6, 1867, aforesaid, as requires the City Treasurer to deliver to the judges and inspectors of election in each precinct a list of persons assessed therein for city taxes during the current year, is hereby repealed.

SEC. 6. The corporation shall have power to provide for the safe and regular building of houses, stores, manufactories and other buildings within its limits, and prevent the erection of any such building in an unsafe or dangerous manner; to make regulations for the purpose of guarding against danger from accidents by fire, to prohibit the erection of any building or addition to or a restoration of any part of any building unless the outer walls be made of brick, stone, mortar, iron or other incombustible material; and also to appoint an inspector or other officer to visit and inspect new buildings during the progress of their construction, and to notify the owners or builders thereof of any part which he may deem unsafe or dangerous, or which may not be sufficiently guarded against damage by fire, and prohibit the same under such regulation as may by ordinance be directed; and section ninth of the act of Assembly, approved April 6, 1867, is hereby repealed. *Provided*, That the Councils of said city shall be authorized to exempt from any of the provisions of this section such part or parts of said city as they may by ordinance determine. And provided further, that the ordinances of said city, forbidding the erection of frame buildings shall not apply or extend to any of the districts consolidated with said city under the act to which this is a supplement, except to what was heretofore known as the borough of Lawrenceville, and that part of Pitt township lying between the Ninth ward and said borough of Lawrenceville.

SEC. 7. That so much of the twelfth section of the aforesaid act of Assembly as limits the power of the city of Pittsburgh to regulate and license carts, wagons, etc., to those which may be kept for hire, is hereby repealed.

SEC. 8. That the jurisdiction for the trial of all offenders under the thirteenth section of said act of April 6, 1867, shall be vested in the Mayor of said city of Pittsburgh, provided that no fine imposed shall exceed the sum of one hundred dollars, and no imprisonment shall exceed the term of sixty days.

SEC. 9. That the Mayor and Aldermen of said city of Pittsburgh shall have jurisdiction of suits for the recovery of fines and penalties imposed by the ordinances of said city.

SEC. 10. That any ordinance, when passed by the City Councils, shall be signed by the President of each Council, and countersigned by the clerks, and shall be published for three consecutive days in the papers authorized to do the city printing, and within thirty days after its passage shall be recorded in the office for the recording of deeds, etc., in and for Allegheny county, in books kept for that purpose; and so much of the eighteenth section of said act of April 6, 1867, as requires the approval of the Mayor, is hereby repealed.

SEC. 11. That all laws in force prior to the aforesaid act of April 6, 1867, relating to the opening, widening and straightening, grading and paving of streets, alleys and highways, and setting the same with curbstones, and for the construction of sewers, and the paving of sidewalks, and providing for the levy and collection of assessments therefor, shall be and remain in full force, and be applicable to the entire district embraced in the city of Pittsburgh as consolidated in accordance with said act of April 6, 1867; but no street or highway shall be opened, graded or paved under said laws, in any part of the territory consolidated with said city under the act to which this is a supplement, unless upon the written application of a majority in interest of the owners whose property is situated or abuts thereon, excepting in that part heretofore known as the borough of Lawrenceville, and in that part of Pitt township lying between the Ninth ward and the said borough of Lawrenceville.

SEC. 12. The Presidents of Councils shall appoint all standing and special committees, all committees being joint except where the business pertains to one branch alone, and in all committees the Common Council shall preponderate in numbers, and have a majority of at least one; and so much of the twenty-third section of the said act of April 6, 1867, as requires each Council to appoint separate standing committees, and hold four sessions in each year, commencing on the day of their first organization, and on the first Monday of April, July and October, respectively, and provides for special meetings on the call of the Mayor or a committee of Councils, and prohibits either Council from adjourning for a longer period of one day, is hereby repealed.

SEC. 13. The twenty-seventh section of the said act of April 6, 1867, shall not be so construed as to prohibit the appointment or election of a member of Council to any office which shall not have been created, or its emoluments increased during the term for which he shall have been elected to Council.

SEC. 14. Hereafter the Mayor, Controller and Treasurer shall be elected for a term of three years, and the Mayor shall be ineligible to hold said office within three year next ensuing the expiration of the term for which he shall have been elected; provided, that this section shall not render the present Mayor ineligible for a second term. The oath of office shall be administered to the Mayor by the President of the Select Council, in the presence of the members of Councils, in joint session, immediately after the organization of the Councils.

SEC. 15. Whereas, the thirty-third, thirty-fourth and thirty-fifth sections of the act of April 6, 1867, provide for the assessment of a special tax for the excess of the separate indebtedness of each city, borough and township within the present limits of the city of Pittsburgh; and, whereas, the councils of the same city have; in accordonce with existing laws, made appropriations for the amount of interest accruing upon the indebtedness of said city; and such special tax, when collected, will be in excess of the amount required for the payment of said interest; therefore, the said Councils are hereby authorized to change or modify the appropriations and assessments made as aforesaid, for the year 1868, if such action shall become necessary.

SEC. 16. No part of the separate indebtedness of the old city of Pittsburgh, or any of the districts incorporated therewith, as ascertained and fixed under the provisions of the thirty-third section of the act to which this is a supplement, or the interest thereon, shall ever in any manner be assessed upon any other of the districts consolidated therewith, nor be payable out of the revenue arising from assessments or taxation therein—the true intent and meaning of said act being that the separate indebtedness of each of said districts shall be paid from the revenue derived from the special tax to be levied in said district.

SEC. 17. That so much of the act approved April 18, 1857, entitled "an act concerning the setting of curbstones and paving sidewalks in the city of Pittsburgh," as limits the power of the Councils of the said city to direct the setting of curbstones and paving of sidewalks upon streets which have been or may hereafter be directed to be graded and paved, is hereby repealed; and said Councils shall be authorized to direct that said sidewalks shall be composed of planks, boards, brick, stone or other material, as by ordinance shall be specified.

SEC. 18. That said Councils shall be and are hereby authorized, whenever they may deem proper, to contract for the making of sidewalks upon any street, alley or square of said city, in the same manner that contracts are now made for the grading and paving of streets, and the cost and expense thereof shall be assessed upon the property abutting on said streets, in the same manner that the cost and expense of grading and paving is now assessed; and all laws relating to the filing of liens and collecting assessments for grading and paving in said city, shall be held to apply to the claims for the cost and expense of making sidewalks. Provided, that whenever Councils shall contract for the making of sidewalks upon one side of any street, and not upon the other, two-thirds of the costs thereof shall be assessed upon the property immediately abutting upon said sidewalks, and one-third the cost thereof upen the property on the opposite side of the street.

SEC. 19. That so much of the sixth section of the act to which this is a supplement, as directs that it shall be the duty of the assessor of each ward returning real estate, to mark on the margin of his book opposite the property of any taxable used for agricultural purposes, the word "rural," and upon any property so returned there shall be assessed and collected only two-thirds of the rate of city taxation that shall be assessed and collected upon other real estate within the said city, shall be and the same is hereby repealed: and all real estate situated within the districts of Oakland, Pitt, Peebles, Liberty and Collins townships shall be collected thereon two thirds of the rate of city taxation that may be assessed and collected upon other real estate within said city. Provided, That the provision of this section shall not be applied to so much of Pitt township as lies north of the Pennsylvania Railroad and between the line of the Ninth ward and Boundary street.

SEC. 20. The City Attorney of said city shall be appointed by the Councils thereof, upon the recommendation of their Finance Committee, in like manner and form, and under the same conditions as the City Attorney was appointed prior to the passage of the act to which this is a supplement.

SEC. 21. That all laws and ordinances relating to the city of Pittsburgh, which were in force prior to the passage of the aforesaid act of April 6, 1867, and which have not been subsequently repealed or supplied, are hereby declared to be and remain in full force, and applicable to said city as consolidated by said act.

Conferee Meeting of the Twenty-Third Congressional District.

The Conferees appointed by the Republican Conventions of Armstrong, Butler and that portion of Allegheny County, together composing the Twenty-Third Congressional District of Pennsylvania, for the purpose of choosing delegates and alternates to represent the district in the Chicago National Republican Convention, met yesterday, pursuant to notice, at Freeport for the purpose of fulfilling the duties of their appointment. After organization of the Conferees they proceeded to ballot, when John M. Thompson, Esq., of Butler County, was elected one of the delegates upon the fourth ballot, receiving five out of nine votes, and Samuel A. Purviance, Esq., of Allegheny County, elected the other delegate on the seventh ballot, receiving six votes out of nine cast. Both nominations were then made unanimous, as also were the nominations of R. H. Davis, Esq., of Allegheny county, and John V. Painter, Esq., of Armstrong county, as alternates. The conferees were a unit in their predilections for Grant for President, but a resolution instructing the delegates and alternates elected to cast their votes for Grant for President and Ex-Governor Curtin for Vice President was laid on the table by a decided vote. The conferees passed the following resolution relative to the attempt of the Philadelphia State Convention to select District delegates:

Resolved, That we deny the power or right of the late Republican State Convention to select Congressional District delegates, and claim that for the Twenty-third Congressional District this Conference alone possesses such power.

Malicious Mischief.

James Cherry made information before Deputy Mayor Owston, yesterday, charging Mrs. Breen, Mrs. Hogan, James Millen, and the children of Mrs. Stetter, Mrs. McLaughlin and Mrs. Conner with malicious mischief. The parties accused reside in the vicinity of the coal yards, at the head of Fourth street, where it appears the prosecutor owns several frame houses, which are to be removed in order to increase the size of a coal yard. The houses were occupied, until yesterday morning, when the tenants vacated. No sooner had they signified their intention to leave, than the accused, knowing the houses were to be torn down, made a raid upon them, and it is alleged, carried away the doors, windows, cupboards, and in fact, everything they could possibly get away, and in one instance, the prosecutor alleges, would have torn the house down before the tenant had time to get his goods out, had he not interfered to prevent it. A warrant was issued and placed in the hands of officer Herron, who states that he had no difficulty in finding the accused, as their yards were filled with doors, windows and lumber, which had been carried from the houses in question. They were arrested and held for a hearing this morning.

Grades in the Ninth Ward.

The citizens of a portion of the Ninth ward have been considerably annoyed by the question of grades, and it appears that their troubles, in that respect, are not yet at an end. Some four years since, by an act of Councils, the grade of Penn street, opposite the old Fair ground, was lowered four feet, solely for the accommodation of the owners of said Fair ground, as the grade is now so low that in cases of extremely high water the street is overflowed several feet. There is now on foot a proposition to change the grade of Clymer street, so as to run the water from Penn street to the river, instead of from Smallman street to Penn, and thence to the river by way of the sewer on Smith street. To do this it will be necessary to raise the grade of Penn street several feet, as the water cannot be carried off at a less fall than one inch to ten feet, and the grade of Penn street is now considerably below high water mark, while it is over 900 feet from the river. It will require a fall of at least eight feet, to convey the water from Penn street to the river, and in order to have that much fall about an ordinary stage of water, the grade of Penn street will have to be raised at least four feet. The grade of Mulberry alley is about thirteen inches above that of Penn street, and being situated 130 feet from Penn toward the river, if Penn is not raised, it will have to be lowered at least twenty-six inches. It is evident to any one who knows anything about the location of the streets at that point, that sooner or later the grade of Penn street will have to be raised, and the sooner it is done the better, consequently it would be folly to lower the grade on Mulberry alley this year, and then raise it next after it has been paved. The matter of grades is one that should be left entirely to the City Regulator, and when once established by him should not be interfered with by either Street Committees or Councils, and until this principle is adopted we can never have any system of grades. If Councils have no confidence in the judgment of the Regulator, they should dismiss him and employ another, and not pay him for doing work which they undo immediately afterward. The establishment of a grade is a matter of vast importance to the property owner, and when it is once established by the Regulator, who is the only proper authority, and the property owner erects a building in accordance with the grade given him, it is unjust to change it at his expense, as in every instance he is not only compelled to bear the cost of filling, or cutting down and refilling, but frequently his building is left several feet above or below the grade. By proceedings of this kind the value of property is greatly diminished, as the purchaser never knows what he is buying. We repeat that the matter of grades is one that should be left solely to the city regulator, subject to the approval of Councils, of course, and when once established should not be changed, except in cases where it is really necessary, and then the Regulator should be consulted before any action is taken. The change of the grade of Clymer street will require the lowering of Mulberry alley at least twenty-six inches below the grade as established by the City Regulator, and unless the very best reasons are furnished to Councils for so doing, we think it would not only be unwise but unjust to property holders, who have erected buildings on the alley in accordance with the grade as given them by the City Regulator, who is the only person from whom it can be obtained. If the change is really necessary, it is better that Penn street be raised, as it will have to be before many years, and it can be done now at a less expense than the other can be cut down, and would be a beneficial and permanent improvement.

Adjourned

A Meddler Punished.

A little affair occurred in the cow market yesterday morning, in which a meddler received his just deserts for interfering with matters which did not concern him. John Miller, it appears, attended the market, having a cow to dispose of, and was about completing a sale with a gentleman at a fair price, when Leopold Long stepped up and advised the man not to purchase the cow, alleging that she was not worth the money he was about to pay for her. Miller requested him to attend to his own business and not interfere with matters which did not concern him, to which Long made an insolent reply. Miller being slightly aggravated at the prospect of failing to effect a sale, and not well pleased with some remarks made by Long, knocked him down and administered to him a severe castigation, which, it is to be hoped will teach him to attend to his own business and not meddle with that which does not concern him. Long made information before Alderman Taylor, charging Miller with assault and battery, and a warrant was issued for his arrest.

Fatal Accident—Coroner's Inquest.

An accident occurred at Corey's Coal Works, Tuesday morning, which resulted in the death of Matthias Feld, a miner, employed at the works. Feld, it appears went to the pit to go to work Tuesday morning, and on arriving there had a difficulty with Mr. McCutcheon, the pit boss, in consequence of which he left the pit between ten and eleven o'clock, and started home, following the incline coal railway which passes under the Pennsylvania railroad track. Just as he was passing under the railroad track a car descending the coal railway struck him, knocked him down and passed over him. He got up and walked about thirty or forty feet, when he fell again. He was then taken up and carried to his residence in Braddocks Fields, where he died in about three hours afterwards.

Coroner Clawson was notified, and held an inquest on the body yesterday. The jury rendered the following verdict: "The deceased came to his death on the 7th day of April, 1868, by being accidentally run over at Corey's Coal Works, in Wilkins township, by a pit car descending the incline of said works."

The deceased was a German, and had been in this country about four years. He has been employed at Corey's Works for eighteen months. He leaves a wife and family.

In the Pipe Business.

George J. Hall made information yesterday before Alderman Taylor, charging E. Deroy with larceny by bailee. George, it appears, had a number of pipes, seven in all, valued at thirty-five dollars, which, in order to raise a little ready cash, he spouted at Deroy's, for which, he alleges, he received pawn tickets. He further states that he gave Deroy's brother the tickets to ascertain what amount of money would be required to redeem the pipes, and that said tickets were taken possession of by E. Deroy, who now holds both pipes and tickets and refuses to return either. A warrant was issued for the arrest of the accused.

W. H. Wagstaff made information before the same magistrate charging the defendant in the above case with a similar offence. She was arrested, and after a hearing held to bail for her appearance at court to answer both charges.
